

## **Global Business Connectivity Provider, IP Access International Providing Video Feed for Governor's 9/11 Coverage**

SAN JUAN CAPISTRANO, CA., September 11, 2006 /PRNewswire/ -- IP Access International (IPA) together with streaming partner GoMobileBroadband (GMB) is pleased to present live video streaming footage of California Governor Arnold Schwarzenegger's September 11th memorial for the California Global War on Terrorism Wall of Honor. In observation of the Fifth Anniversary of September 11th Attacks, GMB has provided the mobile communications equipment for the State of California's live feed that will broadcast over IPA's network. Viewers nationwide will be able to view the Governor dedicate California's Global War on Terrorism Wall of Honor over the Internet.

For those who miss the live stream, archived video of the event will be available on the Governor's website: <http://gov.ca.gov/> Other live webcasts from the Governor's official visits have and will continue to be broadcast via satellite, thanks to the collaboration of GoMobileBroadband and IP Access International from this same link.

The equipment used is a mobile 1.2m dish mounted on a government vehicle with a TracStar autodeploy antenna used to point to the satellite and transmit over the contracted/licensed frequency connecting over the Internet to viewers in a matter of minutes. With push-of-a-button ease, the press and employees from the Governor's office can communicate anywhere throughout the world with access to IPA's satellite network. The solution is easy to transport and does not require a technician. Solutions can be configured for any mobile vehicle and sea transportation. Connectivity can be as short as 15 minutes, 1 hr, 1 day, 1 week or 1 month. GMB, who is a key IPA partner specializing in mobile and remote applications, is proud to bring this high-profile customer to our network, joining others in the Emergency Response, Municipal Rescue, Homeland Security, Construction, Drilling Rigs, Police and Fire Department and Mining Operations who are using such vehicles and mobile wireless service from IPA.
