IP Access International Inducted into NEC UNIVERGE Solutions Partner Program

IP Access International joins NEC global developer program to leverage satellite technology for enhanced mobility solutions and applications

San Juan Capistrano, CA - July 2, 2007 —IP Access International (IPA), a leading independent global satellite service provider, today announced that its satellite technology will be used by NEC Unified Solutions, a leading provider of VoIP and data communications, through the NEC UNIVERGE® Solutions Partner Program. IPA, a leading provider of satellite network solutions will join NEC Unified to deliver critical communications leveraging NEC's UNIVERGE OW5000 platform, and join more than 175 global NEC partners in the development of customized applications and business solutions.

The OW5000 application platform actively promotes interoperability with NEC products and systems, allowing its member partners to develop and integrate with third-party applications. NEC utilizes IP Access International's satellite services as part of its Mobile Voice and Data Unit for disaster recovery and first responders.

Through the UNIVERGE Solutions Partner Program, NEC will work with IPA to tailor products and services to meet a customer's specific needs. The partner program will work to provide IPA's partners with a range of API specifications to support interoperability with NEC UNIVERGE products.

"The communication challenges of today's modern organizations continue to drive demand for innovative applications with advanced capabilities," said Paul Lopez, general manager, Marketing and Services at NEC Unified Solutions. "Our UNIVERGE Solutions Partner Program provides developers with the application interoperability of NEC's OW5000 platform and other resources to customize applications that meet the unique needs of their customers."

"IP Access International welcomes the opportunity to participate as a member in the NEC UNIVERGE Solutions Partner Program, thereby expanding our channel partner capabilities and breadth of solutions," says Bryan Hill, president of IPA.
