

GateWay M6E6F

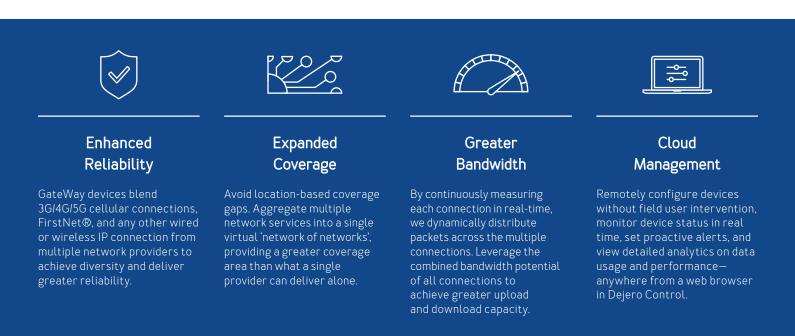

FirstNet Ready® rack-mounted network aggregation device

The GateWay M6E6F device is designed to deliver reliable connectivity for general-purpose applications including voice, video, and data while in nomadic or mobile environments, as well as add wireless connectivity to fixed locations.

Powered by Dejero *Smart Blending Technology*[™], GateWay devices aggregate diverse connectivity paths from multiple providers to deliver enhanced reliability, expanded coverage, and greater bandwidth. With integrated modems that connect to external antennas, GateWay devices provide optimal performance and support VPN tunneling for secure access to private networks.

Dejero GateWay network aggregation devices provide reliable connectivity to the Internet, cloud applications, and private networks. The rack-mounted, FirstNet Ready® device is ideal for installation in vehicles, portable kits, and standard 19" server racks. Solution packages include software and connectivity services with the purpose-built hardware, backed by 2417 support.

Product Specifications

Network Connections

Cellular	6 x 3G/4G/LTE/LTE-A
Ethernet	6 x1Gb/s ports for LAN, WAN connections including satellite (BGAN Ku-band, Ka-band), fixed line (cable, DSL), microwave, and Wi-Fi
Wi-Fi	Dual-band wireless hotspot (802.11 a/b/g/n/ac)
User Interface	
Indicators	Front LEDs for power and disk activity
	Graphical display for modem connection/activity, and WAN Ethernet connection
Control	Front panel dial and power switch
	Setup and monitoring via Dejero Control
Power	
Supply	100-240 VAC, 50-60 Hz, 1.0A max
Consumption	Max 100 W
Physical	
Dimensions (H x W x D)	1U short-depth 19" rackmount 4.4 x 42.7 x 24.9 cm (1.7 x 16.8 x 9.8 inches)
Weight	4.2 kg (9.2 lbs)
Operating Temperature	0° C to 50° C (32° F to 122°F)
Interfaces	6 x RJ45 Ethernet, 12 cellular antennas, 1 x GPS antenna, 2 x Wi-Fi antennas
GateWay 2 Software Features	
Smart Blending Technology Update	Enhancements to overall stability, performance and increased priority routing functionality leading to optimized performance and reliability
Additional Satellite Support	Improved ability to simultaneously manage GEO, MEO and LEO satellites
Enhanced Monitoring	Updates to Control provide greater visibility and proactive error detection

Key Features

Always Connected

Superior to a failover solution, stay connected using Dejero's patented *Smart Blending Technology*

FirstNet Ready®

GateWay devices provide access to the priority public safety communications platform in the United States

Priority Routing

Define priority connections to help manage costs and customize network utilization

Reliable Cloud Access

Access cloud-based applications without fear of losing connectivity in mobile environments

Enhanced Security

We keep your real-time video and data secure by dynamically routing packets over multiple connections

Easy to Use

Simple, intuitive user interface requires minimal effort for field operatives

Rapid Deployment

Easy installation, setup, and remote configuration via web interface $% \left({{{\rm{A}}_{{\rm{B}}}} \right)$

VPN Support

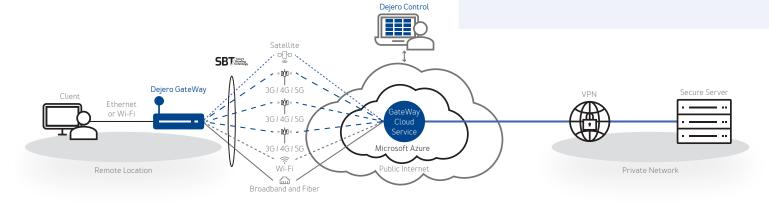

High-speed VPN support provides secure access to private networks from remote locations

Software Updates

Performance, feature, and security enhancements are provided with software updates

Static IP

Services behind a GateWay are always reachable via the same public IP address to simplify configuration and increase control over network traffic *(monthly service fee applies)*
