PLUG IN. POWER ON. GO.

SUPERGIG™ GO

SuperGIG™ GO takes the Dejero TITAN Command and integrates it into a Pelican 1450 hard case, creating a single, self-contained unit that's ready to connect the moment it's powered on. No rack, no separate enclosure, no fragile cabling — just a rugged case built to go anywhere the job takes it.

Rugged Pelican 1450 Case

A rugged hard case protects the TITAN Command during transit and in the field.

4 Ports, Extended to the Edge

All four network ports are extended to capped exterior connectors — connect and disconnect without ever opening the case.

USB-C Powered

A single standardized USB-C input keeps setup simple and lets you power the unit from common field power sources.

Grab-and-Go Portable

At just 14 lbs, SuperGIG™ GO travels as easily as a piece of camera gear — built for crews on the move.

SPECIFICATIONS

CORE UNIT	**Dejero TITAN Command**
ENCLOSURE	**Pelican 1450 hard case**
DIMENSIONS	**17″ x 13″ x 7″**
WEIGHT	**14 lbs**
NETWORK PORTS	**4x Cat6, extended to case exterior**
POWER INPUT	**USB-C**

PLUG IN. POWER ON. SUPERGIG™ GO.

Because the network ports and power input live on the outside of the case, setup is as simple as running cables to the exterior connectors — the Titan Command inside stays protected and untouched.

SuperGIG™ GO is built and integrated by IP Access International around the Dejero TITAN Command platform.
